CONSENT FOR REMOTE DELIVERY

HARSTON SURGERY

The CQC (Care Quality Commission) have previously received an anonymous complaint regarding the privacy of our free medication delivery service. We discussed potential confidentiality issues with the CQC who agreed with our approach below. Please read the following paragraph and sign where indicated if you wish to collect your medication from the remote delivery point.

I am aware that whilst medication will be provided in closed paper or plastic bags it is necessary to display patient name and address on the outside of the bag. Harston Surgery have asked the person responsible for medication dispersal at the remote location to keep this information confidential and the medication bags secure, however there may be occasions, or delivery locations, that when medication bags are being retrieved names and addresses on other bags are visible to others in the vicinity.

I understand this and still wish to use the remote delivery system.
